

AGE JET

What it does

- Blepharoplasty and non-surgical face lifts
- Anti-ageing treatments on hands, skin rehydration and firming
- Activation of the collagen stimulation process in the first session
- No side effects
- Daily routine resumed immediately after treatment
- System with spacers: the heat of the plasma penetrates at depth, leaving the skin intact
- Cooling system for optimal hydration to protect the skin
- Pain-free treatment
- Non-fractional energy for total action over the entire area of skin
- Recovery time almost zero compared with conventional laser treatments

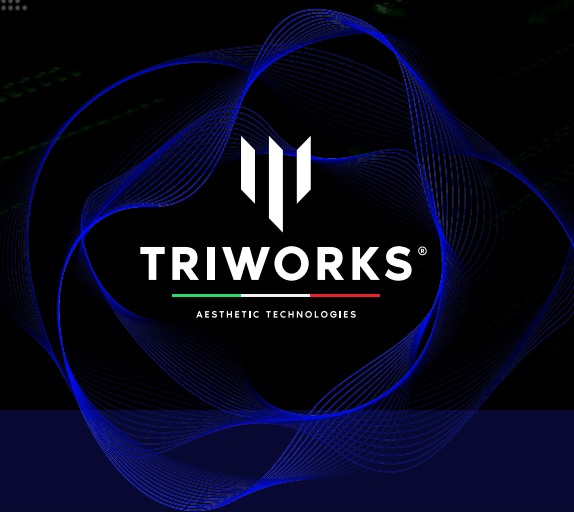

What it resolves

- + Acne scars, benign pigmented lesions, actinic keratoses, seborrheic keratosis, hyperpigmentation, solar elastosis, cherry angiomas, xanthomas, xanthelasma, benign moles
- + Superficial and deep wrinkles, age spots, sun spots, skin blemishes, crow's feet, freckles
- + Stretch marks

The information in this brochure is aimed solely at industry operators.

Effectiveness and results may vary. Specifications and performances compliant with CEE certifications.

Plasma

+ **PURPOSE**
Anti-ageing treatments,
facial rejuvenation

TRIWORKS
AESTHETIC TECHNOLOGIES

Age Jet Applications

One of the outstanding features of Age Jet is its versatility. This technology can be used for a variety of applications, including:

1. Nonsurgical blepharoplasty and nonsurgical face lift

Age Jet can be used to improve the appearance of the upper and lower eyelids, giving a younger, fresher look without the need for surgery.

2. Anti-aging treatments for hands

The hands are often an overlooked but visible area of aging. Age Jet can improve the texture of hand skin, moisturizing and firming it.

3. Activation of the collagen stimulation process

From the very first session, Age Jet begins to stimulate collagen production, helping to improve skin tone.

Details — that make the difference

AGE JET plasma technology is one of the most effective **non-invasive treatments** for **rejuvenating and tightening skin**. Energy delivered to plasma through a **series of controlled pulses** restores the structure of the skin, correcting or removing the imperfection being treated.

Characteristics:

- + Weight: 28 Kg
- + Dimensions: (H * W * D): 115 x 37 x 27 cm
- + Method: plasma energy
- + Energy Pulse: from 1-4 Joule
- + Pulse repetition frequency: from 1 to 3 Hz
- + Programs: 5 presets + 1 customizable setting
- + Handpiece: 1 facial
- + Software upgrading: USB, WiFi

The United States and Italy have always maintained a privileged relationship in the **export of Made in Italy** products.

Our company has the **FDA clearance to market** Age Jet in the **USA**.

Triworks offers tailored solutions for every need

Triworks not only offers advanced ready-made solutions such as Age Jet, but goes beyond that, providing its expertise to customize and adapt the technology to the specific needs of aesthetic professionals.

Triworks is ready to work closely with its customers to develop solutions that effectively meet their needs.

In addition, the company is open to creating products from scratch, starting with the brand and developing technologies that reflect the customer's identity and values.

This flexible, customer-focused approach confirms Triworks' commitment to innovation and customization, positioning it as a leader in the medical aesthetics industry.
